**Church receives grant from Wal-Mart to start computer center**

**GARFIELD HEIGHTS (February 6, 2008)** — Wal-Mart Stores, Inc. recently awarded a grant in the amount of \$1,000 to Word of Righteousness Family Life Center ([www.worflc.org](http://www.worflc.org)), located at 12680 Rockside Road, Garfield Heights, Ohio in Garfield Mall (formerly Garfield Mall Movies). The funds were provided to the church in response to its application for a community grant through Wal-Mart Store # 3326, also located in Garfield Heights in CityView shopping plaza.

Like Wal-Mart, Word of Righteousness Family Life Center is also committed to serving the needs of the local community. The programs and services it offers address the needs of families, children and the underprivileged, such as the homeless, hungry, naked, sick and imprisoned, without regard to race, sex, religion or national origin.

To this end, the church is currently developing a community computer center for the residents of Garfield Heights. The interim director of the church's community outreach program, Pastor Alicia M. Lytle explains, "[s]ince the local public library limits computer usage, students and job seekers face challenges in completing assignments and seeking employment. Our center will supplement this much needed computer access for underprivileged children and adults."

Nevertheless, the church is in need of funding to make this vision a reality. As a result of the generous contribution from Wal-Mart, the church can now purchase computers for the center. Yet, it must still raise the funds to obtain task chairs, printers, networking devices, anti-virus software and other applications and peripherals. Additionally, the church is prayerful that individuals will volunteer to monitor the center and professionals will volunteer to teach computer training courses.

Other individuals and businesses interested in supporting the church's effort to open the community computer center are invited to volunteer and/or make a tax-deductible contribution.
